Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The examiner stated that the after-final amendment filed 9/10/02 would not be entered as the proposed amendment to claim 49 introduces new matter. The limitation got an mRNA "known to be involved in the modulation of cell growth or differentiation" is new matter. The examiner stated that, except for rejections of claims 48-50, all other proposed amendments would overcome rejections and objections to the specification and claims. Mr. Wise indicated that another after-final amendment would be filed.
